# BASIC

- 5 days/4 nights -

This package is thinking for those who want a short circuit in the northern's park of Tanzania.

During safari will discovery lake Manyara, Tarangire park and Ngorongoro crater, spectacular, unique and unesco heritage site and unforgettable sunset from savana.

# CLASSIC TOUR

- 8 days/7 nights -

Is the classic tour to discovery most amazing northern's parks.

Departure is from Arusha and will cross Masai plains to reach the marvellous rift valley of Manyara Lake. Safari will continue crossing Serengeti Park, most famous in the world for Big 5 (lions, leopard, rhino, elephant, buffalo) and spectacular nature. Passing through Ngoronogoro Crater, that is particular ecosystem in only 20 kilometres. In the end Tarangire Park ,amazing landscape with baobab, acacias and a lot of elephants, zebra, antelopes....

# COMPLETE TOUR

- 9 days/8 nights -

This is a tour for people that want a different experience in addition to traditional safari.

Starting from Arusha will cross Masai plains to reach the spectacular rift valley of Lake Manyara. Will continue to the majestic Serengeti Park, famous for the animals. Passing through the Ngorongoro Crater....unique in the world. After Serengeti will head to lake Natron, a dry area dominated by perfect cone of the Oldoinyo Lengai, sacred volcano for Masai People. Will be almost 3000 metres of altitude. This volcano emit natro carbonate lava, rich of sodium carbonate, with very low viscosity and temperature, since it flows between 500 and 590 celsius degree. Safari will end with last park, Tarangire, famous for beautiful landscape , baobab, acacias, animals...

# WINTER MIGRATION

- 8 days/7 nights -

Starting from Arusha will cross Masai plains to reach Lake Manyara, spectacular view, will continue to majestic Serengeti Park through Ngorongoro crater. Leaving the north of Serengeti, the large herds of wildebeest and zebras embarked on the long journey toward the low grass plains of central-southern Serengeti. Between December and January they go even further south for the party's season. The low grass plains and acacias glades around lake Ndutu and Masek are covered with herbivores as far as your eye can see. It is an indescribable sight...with unique soul vibrations ... and feeling. Safari will end with the last landscape of baobab, acacias ... and amount of elephants ...

# SUMMER MIGRATION

- 8 days/7 nights -

The great migration take place every year, is a transhumance of animals, herbivorous that crossing the territory, following the cycle of rains. The pastures are hexausted and herds must move for new food. Start from Arusha will cross Masai plains, until rift valley of Lake Manyara. Continue for majestic Serengeti, throunghing Ngorongoro Crater... At the beginning of july begins the ascent to extreme north (Jobo), the Masai Mara and homonymous river, infested with crocodiles, From august to october lions, cheetahs, hyenas, other predators, will concentrate in this place following the migration of herbivores... Sa fari will end with last interesting site Tarangire Park, one of most beautiful landascape with baobab, acacias, animals...

# SELOUS

- 3 days/2 nights -

- 5 days/4 nights -

This is a classic safari to discover the greatest treasure of Africa.

One of the most beautiful parts of traveling in Africa is the opportunity to admire the infinite landscape, full of colors and emotions. We will start from Dar es Salaam, one of most important commercial city o Tanzania, and by cars will go to the river Rufiji through villages and streets a few beaten, immersed in the landscape of the african bush up to the heart of the Selous.

# SELOUS INCURSION

- 1 day -
- 2 days/1 nights -
- 3 days/2 nights -
- 5 days/4 nights -

This safari selection is designed especially for those who want to combine a short safari with Zanzibar.

The itinerary of 5 days permitted to addtentre in the reserve of Selous, the most beautiful reserve of Africa, and one of the greatest parks in the world. The itineraries are inclusive of internal flight by Dar es Salaam or Zanzibar.

# MIKUMI

- 3 days/2 nights -

- 5 days/4 nights -

Is a different experience in addition to the classic safari.

Departure from Dar es Salaam by car, we achieve Mikumi National Park, which is located on the northern border of Africa's largest hunting reserve. The Selous - and is crossed by the asphalt road between Dar es Salaam and Iringa. It is the most accessible part of a 75,000 square kilometer stretch of wilderness that stretches eastwards almost to the Indian Ocean. The open horizons and abundant wildlife of the alluvial plain of Mkata, the popular centre of Mikumi, are a frequent reminder of the most famous plains of the Serengeti. We suggest this tour to all travelers who want to live a different experience in addition to the classic safari.

A group of hippos is shown in a river. The central hippo is the main focus, with its head and back visible above the water. Its skin is dark grey and has a bumpy, textured appearance. The water is a murky, greenish-brown color. Other hippos are partially visible in the background and foreground, mostly submerged.

## **RUAHA – MIKUMI**

**- 6 days/5 nights -**

**An itinerary for real safari lovers.**

**6 days of full immersion inside the Southern Tanzania, exploring the Ruaha and the Mikumi National Park. An intense journey to Dar es Salaam to the Great Ruaha River, passing at the foot of the Udzungwa mountain range, to end the last 2 days in the savannah of the Mikumi National Park.**
